### Summer Safety Tips

With summer just around the corner, now is a good time to think about ways to keep your child safe and healthy in the summer months!

- 1. Water safety**  
Swimming and water safety classes are available in many communities.
- 2. Sunscreen**  
Children over 6 months old should wear when outdoors. Babies under age 6 months should be protected in light-weight clothing, a hat and kept in the shade.
- 3. Hydration**  
Children need plenty of cool liquids in hot weather.
