

Direct Deposit of Your ECEAP Reimbursements.

The fastest way to get your ECEAP reimbursements into your account is to use the state of Washington's direct deposit system. With this system, funds are deposited directly into your account and are available sooner than the alternative payment method that involves printing a "warrant" (check) and mailing it to you. Most ECEAP contractors use this method.

The Office of Financial Management (OFM) provides direct deposits support for all contractors doing business with the state. To set up direct deposits, or to change your existing direct deposit, contact the OFM Vendor Help Desk.
